SHASTA MOUNTAIN GUIDES

Website Content Sheet — Round 2

Homepage · prepared by The Clay Media · September 30, 2026

Round 2 folds in the notes from your call with Chris: curated photography, guide profiles, the local-community story, educational articles, downloadable resources and form-based calls to action.

How to use this document

Everything below is the copy currently on the updated mockup. Nothing here is final.

Use the right-hand column for changes, or highlight any line and leave a comment. Either works.

If a section is good as-is, you can leave it blank. Silence means approved.

Anything marked PLACEHOLDER needs a decision or content from you before we build.

What changed since round 1: new hero slideshow using your three photos, every photo swapped for your new originals, and five new sections — Meet Your Guides, Rooted in Mt. Shasta, Learn Before You Climb, Free Resources, and a form-first Plan Your Climb contact section. Phone numbers have been moved out of the primary calls to action.
